## WORK EXPERIENCE

### Project/Sales manager Webcapitan

2020 - Present

#### Achievements/Tasks

- Directed sales engagements with potential customers.
- Managed projects in a team of developers and designers.
- Formulated minimum viable products (MVPs), technical specifications (TS/TOR), and user stories for project evaluations with the team.
- Conducted financial reporting for enhancing goal setting and focus direction.
- Selected Agile or Scrum methodologies depending on the specific needs of projects.
- Handled approximately 15 projects simultaneously while communicating with potential customers.
- Managed a team of about 25 people.
- Conducted interviews and recruited new developers to the team.
- Performed preliminary testing on projects prior to submitting them for a more detailed evaluation by the client.

### Project manager "AKW UKRAINIAN KAOLIN COMPANY"

01/2019 - 08/2020

#### Achievements/Tasks

- Optimized kaolin mining processes using ERP system, performed detailed process studies, and facilitated the integration of new ideas to improve productivity and reduce unnecessary workload for employees.
- Liaised with the development team, formulating technical specifications or user stories from employees across different workshops for task evaluation.
- Developed a user-friendly mobile application from scratch for managing KPIs.
- Managed the budgeting process.
